Tally Help

Point of Sale (POS) in Tally.ERP 9

POS is an acronym for **Point of Sale**. Point of Sale could mean a retail shop, a check-out counter in a shop or any other location, where a sales transaction takes place. The various POS equipment used in retail outlets are Cash registers, card readers and barcode scanners.

It is a computerized cash register which adds the sales total, computes the State sales tax or VAT, calculates the change from the money tendered and automatically adjusts the store's inventory to debit the amount of inventory sold.

Features of POS Invoicing in Tally.ERP 9

The POS invoicing functionality in Tally.ERP 9 is:

- Simple and user friendly

- Quick and easy to setup and use

- Facilitates faster data entry and calculations
